

ENVIRONMENTAL PROTECTION AGENCY CERTIFICATE

The Environmental Protection Agency certifies that the holder fulfils the requirements of Commission Implementing Regulation (EU) 2015/2067 to undertake the activities referred to below.

Michael O' Neill

Holder

Commission Implementing Regulation (EU) 2015/2067

Activity	This person is certified in accordance with Article 4 of Commission Implementing Regulation (EU) 2015/2067 for the indicated category of activities below in relation to stationary refrigeration, air conditioning and heat pump equipment, and refrigeration units of refrigerated trucks and trailers containing fluorinated greenhouse gases.	
Category I	Leakage checking of the equipment containing fluorinated greenhouse gases in quantities of 5 tonnes of CO ₂ equivalent or more and not contained in foams, unless such equipment is hermetically sealed, is labelled as such and contains fluorinated greenhouse gases in quantities of less than 10 tonnes of CO ₂ equivalent; and Recovery, Installation, repair, maintenance, servicing and decommissioning of equipment containing fluorinated greenhouse gases.	Certified
Category II	Leakage checking of the equipment containing fluorinated greenhouse gases in quantities of 5 tonnes of CO ₂ equivalent or more and not contained in foams, unless such equipment is hermetically sealed, is labelled as such and contains fluorinated greenhouse gases in quantities of less than 10 tonnes of CO ₂ equivalent, provided that it does not entail breaking into the refrigeration circuit containing fluorinated greenhouse gases; Installation, repair, maintenance, servicing and decommissioning of equipment containing less than 3 kilograms of fluorinated greenhouse gases, or, if hermetically sealed systems which are labelled as such are concerned, containing less than 6 kilograms of fluorinated greenhouse gases; and, Recovery of fluorinated greenhouse gases from equipment.	N/A
Category III	Recovery of fluorinated greenhouse gases from equipment containing less than 3 kilograms of fluorinated greenhouse gases, or, if hermetically sealed systems which are labelled as such are concerned, containing less than 6 kilograms of fluorinated greenhouse gases.	N/A
Category IV	Leakage checking of the equipment containing fluorinated greenhouse gases in quantities of 5 tonnes of CO ₂ equivalent or more and not contained in foams, unless such equipment is hermetically sealed, is labelled as such and contains fluorinated greenhouse gases in quantities of less than 10 tonnes of CO ₂ equivalent, provided that it does not entail breaking into the refrigeration circuit containing fluorinated greenhouse gases.	N/A
<p><i>*Personnel are certified to one of the above four categories as specified in Article 3(2) of Commission Implementing Regulation (EU) 2015/2067, with each category being restricted to specified activities as described above.</i></p>		

Issue Date: 05 February 2020

EPA Certificate Reference No: **R_02006**

Mr Patrick Geoghegan, Senior Manager
Environmental Protection Agency

This Certificate has issued pursuant to the European Union (Fluorinated Greenhouse Gas) Regulations 2016 and 2019 arising from a training certificate issued by the following certification or attestation body in the UK:

City & Guilds on 23/02/2011
